About Me

Hello, I am a Computer Science(AI)) with a strong interest in web development and
artificial intelligence. I enjoy learning new technologies, building projects, and
participating in hackathons.

My goal is to become a skilled software engineer who can design efficient solutions and
create meaningful digital experiences.

Skills & Projects

Web Development
Built responsive web pages using HTML and CSS, focusing on clean structure and simple layouts.

Python Projects
Created small scripts and programs for automation and basic data analysis using Python.

Portfolio Website
Designed this multi-page student portfolio to practice semantic HTML, Flexbox, and form design.
